

Abstract

material has been used in an ugly and fatal way against the civilians who were the depleted Uranium (D4) is one of the nuclear power products. This not party in any armed conflict.

itself the permission for using this weapon although that it has been forbidden by for the fattener of the next generations and their life's. The USA has given military need in two periods: 1991 and 2003. This has caused renewing harm. In Iraq, the United States has overused this weapon without any pressing Geneva Conventions that signed by USA. Cities. These have been on an increase in birth defects. The clear - cut Sol the multiple forms of concerted diseases have spread in many Iraqis Example has been in Fallujah. It is considered a structural fault in the human; legal and moral norms are put aside the use of them internationally for bidden weapons specifically by USA. running after power, interests and hegemony. This is a clear image that needs no lens to understand the mentality, humanity and morality of those who use thin weapons in no sense.
